## **Blue Duck Selected as Exclusive Operator of Scooters in Bryan, Texas**

*Contract establishes Blue Duck as partner-of-choice for last-mile transportation*

SAN ANTONIO, TX, OCTOBER 17, 2019 -- Blue Duck will be the exclusive operator providing electric scooters for rent in the City of Bryan under contract with the city, expanding its footprint in Texas.

The only local company in the last-mile electric mobility space in the Greater San Antonio area, Blue Duck provides a safer and more eco-friendly option for residents who are looking for alternative modes of transportation for their daily activities

"Blue Duck has secured an exclusive license with the City of Bryan and has taken steps to launch a pilot program in Bryan in the near future," said Joey Dunn, Deputy City Manager. "The City of Bryan was interested in working with Blue Duck for this pilot program because of its approach to managing their fleet with in-house employees rather than contractors."

"We are thrilled to officially announce our landing in the community of Bryan," said Blue Duck founder Eric Bell. "We have spent a lot of time listening to the stakeholders in the city and we have tailored our solution to the city's specific needs and requirements. Riders in Bryan will love our newly upgraded user app and the City will receive detailed ridership reports that will provide valuable information to inform their future planning efforts. Our team is fully committed to investing in the communities where we operate," said Mr. Bell.

###

### About Blue Duck Scooters

Blue Duck Scooters is an electric scooter operator focused on Texas and the Southeastern United States. Blue Duck's regional focus, commitment to investing in superior micro-mobility assets, and use of its own employees to deploy, collect and charge its scooters, sets it apart from other scooter operators. Blue Duck is committed to partnering with cities, universities and corporate campuses in designing last mile transportation solutions.
